About Exam

Xiang zhang

- 1.5 – 2 h

- Four types of questions
  - True/false
  - Selection (usually single selection)
  - Simple question (4)
  - Programming (1 - 2)

- Totally in English (Q&A)

- Close-book exam

2

- Scope

  - All in ppts and assignments

  - ~~Java UI / XML / Generic Type / all in flipped classroom~~

3

- About true/false and selection

  - Pay attention to the NOT keyword

- About simple questions

  - don't talk too much irrelevant

  - make clear your points

- About programming

  ○ One is simple, the other is complex

  ○ No requirement to be compilable and runnable

  ○ Not a big deal if you forget the exact name of certain methods

  ○ Don't leave it blank (GIVE YOUSELF A CHANCE AND GIVE ME A CHANCE!!!)

  ○ UML diagram / pseudo code will be much better than blank

  ○ Make clear your intention and your code

- Tips

  - The exam is simple, but every year somebody failed

  - The duration is long enough

  - Pay attention to your code style

    - Naming

    - Comments

  - Don't be anxious, take it easy

Each ending leads to a beginning.
